INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Society for the Protection of New Hampshire Forests
Concord, New Hampshire 03301

Report on the Financial Statements

We have audited the accompanying financial statements of the Society for the Protection of New Hampshire Forests, which comprise the statements of financial position as of April 30, 2019 and 2018, and the related statements of activities and changes in net assets, cash flows, and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Page 1

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Society for the Protection of New Hampshire Forests as of April 30, 2019 and 2018, and the changes in its net assets, cash flows and functional expenses for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 7, 2019, on our consideration of the Society for the Protection of New Hampshire Forests' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Society for the Protection of New Hampshire Forests' internal control over financial reporting and compliance.

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Activities

The Society for the Protection of New Hampshire Forests (the "Forest Society") is a nonprofit membership organization founded in 1901 to protect the State's most important landscapes and promote wise use of its renewable natural resources. The Forest Society's major sources of revenue consist of contributions, grants and investment income.

The Forest Society website is <http://www.forestsociety.org>.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Forest Society have been prepared on the accrual basis; consequently, revenues and gains are recognized when earned, and expenses and losses are recognized when incurred. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Net assets: The Forest Society reports information regarding its financial position and activities according to two categories of net assets: net assets with donor restrictions and net assets without donor restrictions. Descriptions of these net asset categories are as follows:

Net assets without donor restrictions: Net assets without donor restrictions are available for use at the discretion of the Board of Trustees and/or management for general operating purposes. From time to time the Board of Trustees designates a portion of these net assets for specific purposes which makes them unavailable for use at management's discretion.

Net assets with donor restrictions: Net assets with donor restrictions consist of assets whose use is limited by donor-imposed, time and/or purpose restrictions and also includes the accumulated appreciation and depreciation related to donor-restricted endowment funds.

The Forest Society reports gifts of cash and other assets as revenue with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, the net assets are reclassified as net assets without donor restrictions and reported in the statements of activities and changes in net assets as net assets released from restrictions.

Some net assets with donor restrictions include a stipulation that assets provided be maintained permanently (perpetual in nature) while permitting the Forest Society to expend the income generated by the assets in accordance with the donor restrictions and contributions which require by donor restriction that the full amount be spent on acquiring assets to be held permanently (typically fee interest in land). Net assets with donor restrictions also include holdings of land which the Forest Society acquired by donation or purchase that are intended to be protected indefinitely.

See Note 12 for more information on the composition of net assets with donor restrictions.

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Cash and cash equivalents: Cash and cash equivalents include all money market accounts and investments purchased with remaining maturities of three months or less.

Other receivables: Accounts receivable are recorded primarily for rent and program service fees on any unpaid balances. It is the Forest Society's policy to write off uncollectible accounts receivable when management determines the receivable will not be collected. Accounts receivable are considered to be fully collectible and, accordingly, no allowance for doubtful accounts was considered necessary at April 30, 2019 and 2018.

Inventories: Inventories are valued at net realizable value for mature Christmas trees, at cost for immature Christmas trees, and lower of cost or net realizable value for gift shop items.

Inventory consists of the following:

April 30,	2019	2018
Current:		
Gift shop	\$ 1,085	\$ 20,272
Christmas trees expected to be sold within one year	109,863	174,795
<i>Total current</i>	<u>110,948</u>	<u>195,067</u>
Long-term:		
Christmas trees not expected to be sold within one year	178,743	276,446
<i>Total inventory</i>	<u>\$ 289,691</u>	<u>\$ 471,513</u>

Investments: The Forest Society accounts for investments in accordance with FASB ASC 958-320 and subsections. This standard requires that investments with readily determinable values and all investments in debt securities are stated at their fair value in the statements of financial position. Investments in marketable securities are carried at market value in accordance with generally accepted accounting principles. Unrealized gains and losses are included in the changes of net assets in the accompanying statements of activities and changes in net assets. Investment income is recorded on the accrual basis.

Land: Purchased land and donated land are recorded at their fair value upon date of receipt.

The Forest Society holds title to various tracts of land for several different purposes, as follows:

- Permanent land holdings are those tracts which the Forest Society acquired by donation or purchase that are intended to be protected indefinitely. These include the sites of Forest Society's programs or conservation projects and tracts having certain natural features which the Forest Society deems worthy of preservation.
- Land held in trust includes tracts held by the Forest Society until they can be transferred to a recipient (typically a town conservation commission or the State of New Hampshire) specified by the donor.
- Land purchased or acquired by donation, that is intended to be sold on the open market, typically with use restrictions in the new deed.

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

- Land held for resale includes land that has been purchased or accepted as a gift, at its fair value, with the intent that it be sold to some other party or agency which will use the land in accordance with specific Forest Society's restrictions written into the deed at the time of transfer or it will be sold with the proceeds to benefit the Forest Society as specified by the donor.

Deed restrictions attached to most land sold severely restrict the use and development of the land in perpetuity. This practice can substantially reduce the fair value of the land. However, in most cases, there is no impairment of the land's value since deed restrictions are generally attached at the time the land is sold.

Land consists of the following:

April 30,	2019	2018
Permanent land holdings	\$ 62,046,971	\$ 60,693,799
Land held for resale	2,079,536	2,179,536
Deposits on land	-	3,000
<i>Total</i>	<u>\$ 64,126,507</u>	<u>\$ 62,876,335</u>

Property and equipment: Property and equipment are recorded at cost or, in the case of donated assets, at fair value. Repairs and maintenance are expensed as incurred and purchases in excess of \$5,000 or information technology equipment with a life of at least three years are capitalized as additions to property. Depreciation is computed using the straight-line method over the following estimated useful lives:

	Years
Building and land improvements	10-40
Equipment and software	3-10
Furniture and fixtures	7-20
Vehicles.....	5-10

Building and equipment are reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the financial statements for the years ended April 30, 2019 and 2018.

Contributions: The Forest Society recognizes contributions received and made, including unconditional promises to give, as revenue in the period received or made. Contributions received are reported as either revenues without donor restrictions or revenues with donor restrictions. Contributions with donor restrictions that are used for the purposes specified by the by the donor in the same year as the contribution is received are recognized as revenues with donor restrictions and are reclassified as net assets released from restrictions in the same year. Promises to contribute that stipulate conditions to be met before the contribution is made are not recorded until the conditions are met. There were no conditional promises to give for the years ended April 30, 2019 and 2018.

Membership dues: Membership dues collected are recorded as revenues when received.

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Functional allocation of expenses: The statements of functional expenses present expenses by function and natural classification. Most expenses are assigned to functional area as they are incurred by coding every expense to a cost center. Salaries are assigned to cost centers on staff time sheets that are filled out contemporaneously for each pay period. Benefit costs are assigned proportionally to cost centers each pay period based on salary costs.

All other expenses with the exception of buildings and grounds are assigned to cost centers as each expense is incurred.

Building and grounds expenses are assigned to cost centers as they are incurred, with much of that cost assigned to land and easement stewardship where the cost centers for the Conservation Center in Concord and the buildings at the Rocks are assigned. After the close of the fiscal year building and grounds maintenance costs for the Conservation Center and the buildings at the Rocks are spread between the cost centers that use those buildings.

For the Rocks building and grounds costs are spread to programs based on salary costs. The spread is based on salaries because significant amounts of work are done by seasonal staff, so salary cost is a reasonable stand in for effort devoted to a cost center. For the Conservation Center building and grounds costs are spread to programs based on staff full time equivalents (FTEs) devoted to each cost center. The spread is based on regular staff FTEs because most work in Concord is done by regular staff, so FTEs are a reasonable stand in for effort devoted to each cost center.

Fundraising and advertising: Fundraising costs are expensed as incurred, even though they may result in contributions received in future years. The Forest Society generally does not conduct its fundraising activities in conjunction with its other activities. In the few cases in which it does, joint costs have been allocated between fundraising and management and general expenses in accordance with standards for accounting for costs of activities that include fundraising. Additionally, advertising costs are expensed as incurred.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair value option: Generally accepted accounting principles (GAAP) provides a fair value option election that allows organizations to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and liabilities. GAAP permits the fair value option election on an instrument-by-instrument basis at specified election dates, primarily at the initial recognition of an asset or liability or upon an event that gives rise to a new basis of accounting for that instrument. The Forest Society has elected the fair value option for contributions receivable and annuities payable.

Income taxes: The Forest Society is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code (the Code) whereby only unrelated business income, as described by Section 512(a)(1) of the Code, is subject to federal income tax. The Forest Society pays a nominal amount of tax relating to unrelated business activities, primarily from gift shop and Christmas tree sales, and New Hampshire Business Enterprise Tax imposed by the state on interest, dividends and payroll expense incurred.

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

The Forest Society has adopted the provisions of FASB ASC 740, Accounting for Uncertainty in Income Taxes. Accordingly, management has evaluated the Forest Society's tax positions and concluded the Forest Society had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment or disclosure in the financial statements. With few exceptions, the Forest Society is no longer subject to income tax examinations by the U.S. Federal or State tax authorities for tax years before 2016.

Contributions receivable: Unconditional contributions receivable are reported at net realizable value if, at the time the promise is made, payment is expected to be received in one year or less. Unconditional promises that are expected to be collected in more than one year are reported at fair value initially and in subsequent periods because the Forest Society elected the fair value option in accordance with GAAP. Management believes that the use of fair value reduces the cost of measuring unconditional promises to give in periods subsequent to their receipt and provides equal or better information to users of its financial statements than if those promises were measured using present value techniques and historical discount rates. Conditional promises to give are not included in the financial statements.

Change in accounting principle: In August 2016, the FASB issued ASU 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities* (Topic 958). The ASU amends the current reporting model for nonprofit organizations and enhances their required disclosures. The major changes include: (a) requiring the presentation of only two classes of net assets now entitled "net assets without donor restrictions" and "net assets with donor restrictions", (b) modifying the presentation of underwater endowment funds and related disclosures, (c) requiring the use of the placed in service approach to recognize the expiration of restrictions on gifts used to acquire or construct long-lived assets absent explicit donor stipulations otherwise, (d) requiring that all nonprofits present an analysis of expenses by function and nature and disclose a summary of the allocation methods used to allocate costs, (e) requiring the disclosure of quantitative and qualitative information regarding liquidity and availability of resources, and (f) presenting investment return net of external and direct internal investment expenses, and (g) modifying other financial statement reporting requirements and disclosures intended to increase the usefulness of nonprofit financial statements.

The Forest Society has adopted this ASU for the year ended April 30, 2019 with retroactive application for the April 30, 2018 financial statements. As a result, the Forest Society changed its presentation of its net assets classes and expanded the footnote disclosures as required by the ASU. The Forest Society has opted to not disclose liquidity and availability information for April 30, 2018 as permitted under the ASU in the year of adoption.

Recent accounting pronouncements: In May 2014, the FASB issued, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the Forest Society expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance when it becomes effective on May 1, 2019. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. Management is currently evaluating the impact this will have on its financial statements.

In February 2016, the FASB issued, *Leases, Topic 842* (ASU 2016-02), which will be effective for the Forest Society on May 1, 2020, with early adoption permitted. Under ASU 2016-02, at the commencement of a long-term lease, lessees will recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. Lessees (for capital and operating leases) must apply a

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. Management is currently evaluating the impact this will have on its financial statements.

Note 3. Concentration of Credit Risk

The Forest Society maintains its cash balances with local banks. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At April 30, 2019, the Forest Society's uninsured cash balances totaled approximately \$747,300. Cash needed in the short term in excess of the FDIC insured limit is protected with a repurchase agreement between the Forest Society and its bank. Funds in excess of the insured limit are swept daily and held in purchased securities in the Forest Society's name. The Forest Society's balance in the repurchase sweep agreement amounted to approximately \$747,000 at April 30, 2019.

In addition, at April 30, 2019, the Forest Society had a cash balance amounting to approximately \$1,897,000 held through an Insured Cash Sweep Service (ICS) agreement between the Forest Society and its bank. The ICS places Forest Society funds at other FDIC insured banks in amounts that do not exceed the FDIC insured maximum. Through the ICS program, the Forest Society can exclude specific banks to ensure the FDIC insured limit is never exceeded at the destination banks.

Note 4. Contributions Receivable

Contributions receivable consist of the following:

April 30,	2019	2018
Promise to give expected to be collected in:		
Less than one year	\$ 339,566	\$ 1,726,923
One to five years	-	7,500
Beyond five years	35,000	27,500
	<u>374,566</u>	<u>1,761,923</u>
Less discount to net present value	21,691	10,944
<i>Net contributions receivable</i>	<u>\$ 352,875</u>	<u>\$ 1,750,979</u>

Contributions receivable are reported at fair value, which is estimated as the net present value of expected future cash inflow. A discount rate of 4% was applied to determine present value for the years ended April 30, 2019 and 2018. Contributions receivable are considered to be fully collectible and, accordingly, no allowance for doubtful accounts was considered necessary at April 30, 2019 and 2018.

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Note 5. Investments

The following is a summary of investments at cost and related market value as of April 30:

	2019		2018	
	Cost	Fair Value	Cost	Fair Value
Domestic equities	\$ 4,577,321	\$ 4,891,589	\$ 5,273,514	\$ 5,244,355
International equities	4,182,811	4,102,444	4,557,198	4,515,297
Fixed income securities	4,229,168	4,256,014	4,132,997	4,117,546
Specialty equity funds	1,703,340	1,758,831	1,628,544	1,603,927
Short term investments	1,357,073	1,357,073	804,096	804,096
<i>Total investments</i>	<i>\$ 16,049,713</i>	<i>\$ 16,365,951</i>	<i>\$ 16,396,349</i>	<i>\$ 16,285,221</i>

Investment return is summarized as follows:

April 30,	2019	2018
Interest on temporary cash balances	\$ 26,393	\$ 16,688
Interest and dividend income	412,388	308,628
Net realized and unrealized gains	423,416	1,061,186
<i>Investment return</i>	<i>\$ 862,197</i>	<i>\$ 1,386,502</i>

Investment management fees amounted to \$25,000 and \$62,244 for the years ended April 30, 2019 and 2018, respectively, and have been netted against realized and unrealized gains on investments in the accompanying statements of activities and changes in net assets.

Note 6. Property and Equipment

Property and equipment, at cost, April 30,	2019	2018
Building and land improvements	\$ 5,778,944	\$ 6,082,554
Equipment and software	562,335	550,839
Furniture and fixtures	102,055	112,903
Vehicles	142,298	142,298

Less accumulated depreciation	4,193,712	4,221,029
<i>Total property and equipment, net</i>	<i>\$ 2,391,920</i>	<i>\$ 2,667,565</i>

NOTES TO FINANCIAL STATEMENTS

Note 7. Fair Value Measurements

The Fair Value Measurements Topic of the FASB Accounting Standards Codification (FASB ASC 820-10) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 - inputs are unadjusted, quoted prices in active markets for identical assets at the measurement date. The types of assets carried at level 1 fair value generally are securities listed in active markets. The Forest Society has valued their investments, listed on national exchanges at the last sales price as of the day of valuation.
- Level 2 - inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option-pricing models, discounted cash flow models, and similar techniques.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

Financial assets and liabilities carried at fair value on a recurring basis consisted of the following at April 30, 2019:

	Level 1	Level 2	Level 3
Assets:			
Domestic equity funds	\$ 4,891,589	\$ -	\$ -
Fixed income equity funds	4,256,014	-	-
International equity funds	4,102,444	-	-
Specialty equity funds	1,758,831	-	-
Cash and short term investments	1,357,073	-	-
Contributions receivable, net	-	-	352,875
<i>Total</i>	<u>\$ 16,365,951</u>	<u>\$ -</u>	<u>\$ 352,875</u>
Liabilities:			
Annuities payable	\$ -	\$ -	208,657

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Financial assets and liabilities carried at fair value on a recurring basis consisted of the following at April 30, 2018:

	Level 1	Level 2	Level 3
Assets:			
Domestic equity funds	\$ 5,244,355	\$ -	\$ -
Fixed income equity funds	4,117,546	-	-
International equity funds	4,515,297	-	-
Specialty equity funds	1,603,927	-	-
Cash and short term investments	804,096	-	-
Contributions receivable, net	-	-	1,750,979
<i>Total</i>	<u>\$ 16,285,221</u>	<u>\$ -</u>	<u>\$ 1,750,979</u>
Liabilities:			
Annuities payable	\$ -	\$ -	\$ 188,713

Assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the years ended April 30, 2019 and 2018:

	Annuities Payable, net	Contributions Receivable, net
Balance, April 30, 2018	\$ 188,713	\$ 1,750,979
Payments received	-	(2,254,323)
New contributions	27,530	866,966
Change to present value	26,961	(10,747)
Payments to beneficiaries	(34,547)	-
Balance, April 30, 2019	<u>\$ 208,657</u>	<u>\$ 352,875</u>
	Annuities Payable, net	Contributions Receivable, net
Balance, April 30, 2017	\$ 202,728	\$ 2,081,754
Payments received	-	(443,580)
New contributions	-	136,186
Contribution receivable write-offs	-	(17,500)
Change to present value	19,395	(5,881)
Payments to beneficiaries	(33,410)	-
Balance, April 30, 2018	<u>\$ 188,713</u>	<u>\$ 1,750,979</u>

The Forest Society has elected the fair value option for recording long-term contributions receivable and annuities payable. As a result of this election, contributions receivable and annuities payable are reported at fair value initially and in subsequent periods.

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

GAAP requires disclosure of an estimate of fair value of certain financial instruments. The Forest Society's significant financial instruments are cash, notes payable and other short-term assets and liabilities. For these financial instruments, carrying values approximate fair value.

All assets and liabilities have been valued using a market or income approach and have been consistently applied. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other sources.

The income approach uses valuation techniques to convert future amounts to a single present amount based on current market expectations about the future amounts (includes present value techniques and option-pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

Note 8. Line of Credit

The Forest Society has \$1,850,000 available as a revolving line of credit agreement, payable on demand, with a bank. The line of credit has a review date of September 30, 2019. Bank advances on this line of credit bear interest equal to the Wall Street Journal Prime rate which was 4.75% at April 30, 2019. The line of credit is unsecured. The balance on the line of credit at April 30, 2019 and 2018 was \$246,500 and \$-, respectively.

Note 9. Notes Payable

April 30,	2019	2018
Note payable to a voluntary corporation, dated September 2010, in the original amount of \$213,750 payable in annual installments of \$11,250, no interest, due September 2030. The note is unsecured.	\$ 123,750	\$ 135,000
Note payable to individual, dated April 2013, in the original amount of \$600,000, payable in quarterly installments of \$15,000, no interest, due April 2023. The note is unsecured.	240,000	300,000
	363,750	435,000
Portion payable within one year	71,250	71,250
<i>Long-term debt, less current maturities</i>	<u>\$ 292,500</u>	<u>\$ 363,750</u>

Principal payments on long-term obligations are as follows:

<u>Year Ending April 30,</u>	
2020	\$ 71,250
2021	71,250
2022	71,250
2023	11,250
2024	11,250
Thereafter	127,500
<i>Total</i>	<u>\$ 363,750</u>

NOTES TO FINANCIAL STATEMENTS

Note 10. Charitable Gift Annuities

Amounts due under annuities payable represent gifts received under agreements which guarantee to pay a fixed amount for a specified period of time. Such gifts are recorded as revenue when received and the present value of the future amount payable is credited to a liability account. Annuities are reported at their fair value, which is determined based on the ages of life expectancies of the designated beneficiaries using the IRS life expectancy tables and a discount rate of 6% for the years ended April 30, 2019 and 2018.

Note 11. Endowment Fund Assets

The Forest Society's endowment consists of 42 individual funds established for a variety of purposes. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by GAAP, net assets associated with endowment funds, including those funds designated by the Board of Trustees, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law: The Forest Society is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and, thus, classifies amounts in its donor-restricted endowment funds as net assets with donor restrictions because those net assets are time restricted until the Board of Trustees appropriates such amounts for expenditures. Most of those net assets are also subject to purpose restrictions that must be met before reclassifying those net assets to net assets without donor restrictions. The Board of Trustees of the Forest Society has interpreted UPMIFA as not requiring the maintenance of purchasing power of the original gift amount contributed to an endowment fund, unless a donor stipulates the contrary.

As a result of this interpretation, when reviewing its donor-restricted endowment funds, the Forest Society considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Forest Society has interpreted UPMIFA to permit spending from underwater funds in accordance with the prudent measures required under the law. Additionally, in accordance with UPMIFA, the Forest Society considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purposes of the organization and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the organization, and (7) the investment policies of the Forest Society.

Underwater Endowment Funds: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Forest Society to retain as a fund of perpetual duration. There were no deficiencies of this nature as of April 30, 2019 and 2018.

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Investment Return Objectives, Risk Parameters and Strategies: The Trustees of the Forest Society have established the following objectives for its invested funds: (a) maintain the purchasing power of the principal on a long term-basis, (b) provide a reasonable stream of income on a total-return basis that will substantially contribute to the funding of the Forest Society's operations and support a prudent spending policy adopted by the Trustees from time to time, and (c) maintain availability of sufficient cash to fund ongoing operating expenses.

The Forest Society's overall investment objective is to achieve growth in the value of the assets that is sufficient to preserve the inflation-adjusted purchasing power of the portfolio over a long-term time horizon.

Spending Policy: The spending policy calculation for the year ended April 30, 2019 was based on 5.25% of the twenty quarters moving average of the invested endowment and unrestricted net assets, with new endowment contributions of \$400,000 or more aged back twelve trailing quarters. The operating draw will be taken exclusively from the endowment funds resulting in an effective draw rate of 6.35% of twenty trailing quarters of invested endowment and twelve trailing quarters of new endowment contributions.

Endowment net asset composition by type of fund as of April 30, 2019 are as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Donor-restricted endowment funds	\$ -	\$ 11,408,867	\$ 11,408,867
Board designated endowment funds	371,428		371,428
Unrestricted invested funds	1,882,320	-	1,882,320
<i>Total</i>	<i>\$ 2,253,748</i>	<i>\$ 11,408,867</i>	<i>\$ 13,662,615</i>

Changes in endowment net assets as of April 30, 2019 are as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Endowment net assets, beginning of year	\$ 2,288,224	\$ 11,210,597	\$ 13,498,821

Note 12. Net Assets with Donor Restrictions

Net assets with donor restrictions are restricted for the following purposes or periods:

April 30,	2019	2018
Subject to expenditure for specified purpose or period:		
Land protection	\$ 2,967,846	\$ 4,506,240
Reservation stewardship	1,304,026	1,032,102
Education	139,893	181,434
Policy	98,055	36,629
Other	7,583	4,516
Easement stewardship	1,079	559
<i>Total subject to expenditure for specified purpose or period</i>	<u>4,518,482</u>	<u>5,761,480</u>

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Endowments subject to the Forest Society's spending policy and appropriation:

Investments in perpetuity (original amounts of \$9,487,349 in 2019 and \$9,256,904 in 2018), which one appropriated, is expendable to support activities of the Forest Society

11,469,505	11,282,379
------------	------------

Not subject to appropriation or expenditure:
Permanent land holdings

62,046,971	60,693,799
------------	------------

Total net assets with donor restrictions

\$ 78,034,958	\$ 77,737,658
---------------	---------------

Note 13. Net Assets without Donor Restrictions

The Forest Society's net assets without donor restrictions is comprised of the following:

April 30,	2019	2018
Undesignated	\$ 750,471	\$ 1,120,843
Undesignated - invested in land, property and equipment	4,471,456	4,847,074
Board designated for endowment	371,428	393,648
Unrestricted invested funds	1,882,320	1,894,576
<i>Total net assets without donor restrictions</i>	<u>\$ 7,475,675</u>	<u>\$ 8,256,141</u>

Note 14. Liquidity and Availability of Resources

The following reflects the Forest Society's financial assets as of the balance sheet date, reduced by amounts no available for general use because of contractual or donor-imposed restrictions within one year of the balance sheet date. Amounts not available include amounts set aside for long-term investing in the board designated funds and unrestricted invested funds that could be drawn upon if the governing board approves that action. However, amounts already appropriated from the donor-restricted endowment, board designated funds and unrestricted invested funds for general expenditure within one year of the balance sheet date have not been subtracted as unavailable.

April 30,	2019
Cash	\$ 2,826,444
Investments	16,365,951
Contributions receivable	352,875
Accounts receivable	85,904
<i>Financial assets, at year-end</i>	<u>19,631,174</u>

(continued on next page)

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

Less those unavailable for general expenditures within one year, due to:

Contractual or donor-imposed restrictions:

Restricted by donors with purpose restrictions	(3,447,693)
Restricted by donors in perpetuity	(10,887,742)
Investments held in annuity trust	(471,577)
Board designations	(100,428)
Unrestricted invested funds	<u>(1,653,319)</u>

*Financial assets available to meet cash needs for
general expenditures within one year*

\$ 3,070,415

The Forest Society is substantially supported by restricted contributions. Because a donor's restriction requires resources to be used in a particular manner or in a future period, the Forest Society must maintain sufficient resources to meet those responsibilities to its donors. Thus, financial assets may not be available for general expenditure within one year.

As part of the Forest Society's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due. In addition, the Forest Society has board designated funds of \$100,428 and unrestricted investments of \$1,653,319. Although the Forest Society does not intend to spend from these funds other than amounts appropriated for general expenditure as part of its annual budget approval and appropriate process, amounts from these funds could be made available if necessary.

Note 15. Retirement Plans

Effective January 1, 1988, the Forest Society established a 403(b) tax sheltered annuity plan covering all qualified employees. Presently, the Forest Society matches the first 4% of a participating employee's base salary. Additional voluntary contributions may be made by the employees. The percentage of the Forest Society's match is determined by the Board of Trustees and has remained unchanged since 1997. For the years ended April 30, 2019 and 2018, the Forest Society's contribution to the plan totaled \$79,996 and \$73,814, respectively.

The Forest Society had an unqualified deferred compensation agreement with a former employee of the Forest Society. The Forest Society owned the assets under this arrangement and cashed out those assets with board approval. The assets are invested in a board restricted fund which is included in the statement of financial position under investments. The contractual liability of the obligation ended in 2018. The Forest Society, at their option, are making the annual distribution of \$21,000.

Note 16. Unusual/Infrequent Item – Fire at the Rocks

For the year ended April 30, 2019, the Forest Society sustained a fire at the Rocks that resulted in substantial damage. The Forest Society lost program buildings, contents in the buildings, and much of the equipment for the Christmas tree farm. These assets were originally recorded at the value of the property and equipment

SOCIETY FOR THE PROTECTION OF NEW HAMPSHIRE FORESTS

NOTES TO FINANCIAL STATEMENTS

acquired approximately 40 years ago, and accordingly, have been depreciated over their economic life resulting in an adjusted cost basis of approximately \$142,700 at the time of the fire. The Forest Society had insurance coverage for the buildings and equipment and received \$144,500 in an initial advance related to the fire at the Rocks. The insurance proceeds paid in fiscal year 2019 exceeded the adjusted cost basis, which resulted in a gain of \$1,757 which is included in total revenue and support.

Currently, the Forest Society and the insurance carrier are in the process of determining the total insurance settlement for the buildings and contents with a minimum of approximately \$1,500,000 with an additional amount to bring the total to approximately \$2,000,000 once rebuilding is complete.

The Forest Society also maintains insurance for business interruption relating to catastrophic events. Business interruption coverage covers lost revenues and other costs incurred. Non-refundable insurance recoveries received in excess of net book value of damaged assets, clean-up and demolition costs, and post-event costs are recognized as income in the period received. The Forest Society and the insurance carrier are in the process of reviewing the business interruption and vehicle coverage.

Note 17. Subsequent Events

The Forest Society has evaluated subsequent events through August 7, 2019, the date which the financial statements were available to be issued, and have not evaluated subsequent events after that date. There were no other subsequent events identified, other than the insurance proceeds related to the fire at the Rocks as noted in Note 16, that would require disclosure in the financial statements for the year ended April 30, 2019.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
Society for the Protection of New Hampshire Forests
Concord, New Hampshire 03301

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the statements of financial position, activities and changes in net assets, cash flows and functional expenses of Society for the Protection of New Hampshire Forests as of and for the year ended April 30, 2019, and the related notes to the financial statements, which collectively comprise Society for the Protection of New Hampshire Forests' basic financial statements, and have issued our report thereon dated August 7, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Society for the Protection of New Hampshire Forests' internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Society for the Protection of New Hampshire Forests' internal control. Accordingly, we do not express an opinion on the effectiveness of Society for the Protection of New Hampshire Forests' internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any additional deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Page 25

Compliance

As part of obtaining reasonable assurance about whether Society for the Protection of New Hampshire Forests' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
